

PREFACE

The quarterly Price Bulletin is a publication of the Directorate of Economics and Statistics, Nagaland. The bulletin contains the relative study in the movement of Retail Price from eleven(11) centers, Wholesale Price from Dimapur centre and Consumer Price Index(CPI) using base year 1981-82=100.

In this publication the CPI is compiled and estimated for current Retail Price with the old base year price. CPI is indeed a method which measures the relative change of price of a fixed set of goods and services consumed by a defined set of families in a particular area with reference to the base year. It is a useful tool in generating and adjusting real wages and salaries, taxation, price policy, such other economic policies and indicates real income and purchasing power of money. In addition a detail analysis of the Averages and Comparative Statements has been included to give a clear view of Price movement during the months in review and of the preceding months.

It is our hope that the data contained in this report will be of immense help to the policy makers, planners, administrators and researchers.

Suggestions for the improvement of this publication are always welcome.

Dated: 30.11.2013
